The Cyclone Wheel's unique mesh design allows the wheel to act as a super soaker by cooling users as the wheel rotates. The Cyclone's inner mesh helps with rotation, while the free-floating feature allows for ultimate spinning in a human-sized version of a mouse wheel. Use as a standalone item or integrate into any aquapark with Cyclone Enclosure.

**Mooring Diagram**

\* We recommend using Aquaglide mooring lines and weight recommendations as a starting point. It is the responsibility of the owner/operator to consider the needs of their specific site, to monitor aquapark items, and to make adjustments as necessary. Some circumstances may require additional weight or different types of mooring.

Cyclone enclosure includes adequate weight to anchor wheel. Cyclone Wheel can also be anchored separately
