The Triad was created to provide three times the fun as our single balance beams, the Foxtrot and the i-Beam. Users can challenge themselves to walk three long and narrow beams to test balance, strength, and concentration. Three identical beams mean multiple users can race to the center, hold jousting matches with friends, or see who stays on the longest. Use the Triad as a standalone feature or connect to any Aquaglide Aquapark configuration using the D-Ring Interloc system.

Mooring Diagram

* We recommend using Aquaglide mooring lines and weight recommendations as a starting point. It is the responsibility of the owner/operator to consider the needs of their specific site, to monitor aquapark items, and to make adjustments as necessary. Some circumstances may require additional weight or different types of mooring.
